a. type of material

- ☐ a sequence listing
- ☐ table(s) related to the sequence listing

b. format of material

- ☐ on paper
- ☐ in electronic form

c. time of filing/furnishing

International application No.
PCT/IL05/00142

Box No. V Reasoned statement under Rule 43 bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims <u>1-50</u>	YES
	Claims <u>NONE</u>	NO
Inventive step (IS)	Claims <u>1-14</u>	YES
	Claims <u>15-50</u>	NO
Industrial applicability (IA)	Claims <u>1-50</u>	YES
	Claims <u>NONE</u>	NO

2. Citations and explanations:

Claims 15-50 lack an inventive step under PCT Article 33(3) as being obvious over Jourtras. It would have been obvious to one having ordinary skill in the art at the time that the invention was made that the exercising apparatus and techniques disclosed by Jourtras could be used to perform the method steps recited in the claims. The apparatus disclosed by Jourtras includes that structural limitations of the apparatus claims recited in the claims.

Claims 1-14 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest a method of exercising using an actuator at different locations to perform a first exercise at one location and the same exercise at a second location, wherein the first exercise and the second exercise use the same movement mechanism design for moving the actuator.

Claims 1-50 meet the criteria set out in PCT Article 33(4), and thus have industrial applicability because the subject matter claimed can be made or used in industry.
